General Statement of Professional Experience (written by firm)

R. W. Gillespie & Associates, Inc. provides professional services in geotechnical engineering, materials testing, geothermal energy, and environmental sciences. Our environmental services include investigations for on-site water resources and engineered subsurface wastewater disposal. RWG&A assists owners, designers, and contractors to identify and manage their projects' uncertainties. RWG&A engineers have conducted numerous geotechnical studies. Projects have included low to high-rise buildings, utilities, bridges, dams, product storage tanks, parking structures, communication towers, and airports. Building types include educational, medical, residential, office, and commercial. RWG&A is experienced in Phase I and II environmental site assessments and groundwater monitoring and modeling. RWG&A also offers construction materials testing and building code special inspection services.
